

# Stop Groups

## *Work-flow to Use Stop Groups*

- » Use **Add Preference** to obtain a baseline dialog that sets a named Stops Group
- » Repeat **Add Preference** for additional instances of the baseline dialog

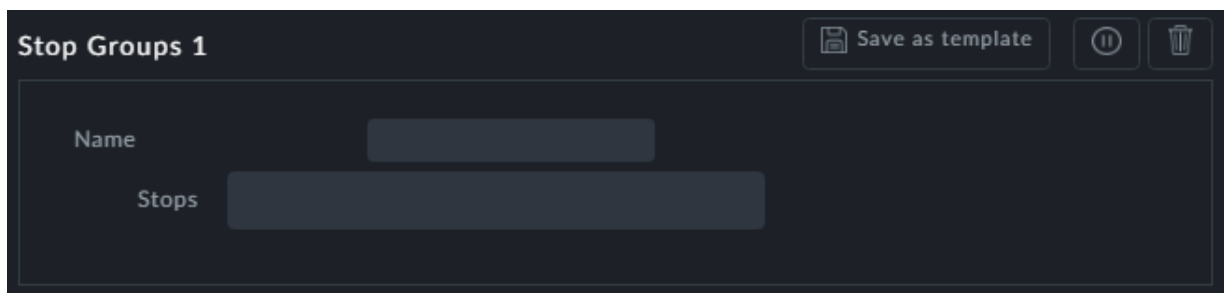

## *Preference Overview*

This preference sets up named Stops Groups. They are used for example, so set up Duty Terminal Stops and Relief Points.

## *Add Preference Dialog*

**Prerequisites:** None.

**Opening Dialog:**

The screenshot shows a dark-themed dialog box titled "Stop Groups 1". In the top right corner, there are three buttons: "Save as template", a pause button, and a delete button. The main content area has two input fields. The first field is labeled "Name" and the second field is labeled "Stops". Both fields are currently empty.

**Points to note:**

- » **Name:** Enter a name for the group. The name will be used in reports. Further, they will be available by name to preferences requiring Stop Groups.
- » **Stops:** You will be shown a drop-down list of available stops.

**Stop Groups 1** ✎

Name	TSG 1
Stops	<div> <div></div> <div>8th &amp; Spring St ( 32 )</div> <div>Ave Scott &amp; Ave Stanford ( 24 )</div> <div>Ave Stanford &amp; Technology Dr ( 28 )</div> <div>Bouquet Canyon Rd &amp; Centurion Wy ( 48 )</div> <div>COC Campus ( 9 )</div> <div>Calgrove Blvd &amp; Creekside Dr ( 43 )</div> </div>

Choose as many as you need by clicking them.
