

Continuous Attendance

Preference Overview

This preference sets the maximum time a vehicle may be left unattended. The maximum unattended time has, for example implications for driver changeover delays.

Allowance is made for a stops where a vehicle may be left unattended - for example inside a depot.

**Note**

There are two preference templates available only one of which may be used and then only as a single instance.

Templates Available from Optibus

Table 1-1: Templates Summary

Template Name	Purpose	Reference
Vehicle Attendance	Sets the maximum unattended time for a vehicle.	Vehicle Attendance
Vehicle Attendance (Non attendance stop)	Sets maximum unattended time for a vehicle excluding a list of nominated stops where leaving it unattended is permitted.	Vehicle Attendance (Non attendance stop)

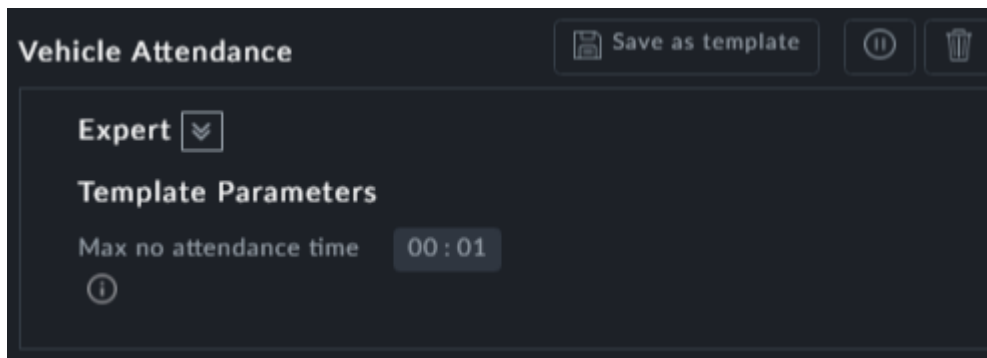

Vehicle Attendance

Purpose:

Sets the maximum unattended time for a vehicle.

Prerequisites: None.

Opening Dialog:

The screenshot shows a dark-themed dialog box titled "Vehicle Attendance". At the top right, there are three buttons: "Save as template" (with a floppy disk icon), a pause button (with a double vertical bar icon), and a delete button (with a trash can icon). Below the title bar, there is a section labeled "Expert" with a dropdown arrow icon. Underneath, the "Template Parameters" section contains a label "Max no attendance time" followed by a text input field displaying "00 : 01". An information icon (a lowercase 'i' inside a circle) is located below the input field.

Points to note:

Maximum no attendance time: This is the maximum time a vehicle may be left unattended.

Vehicle Attendance (Non attendance stop)

Purpose:

Sets maximum unattended time for a vehicle excluding a list of nominated stops where leaving it unattended is permitted.

Prerequisites: None.

Opening Dialog:

Vehicle Attendance (Non attendance stop)

Template Parameters

Max no attendance time 00 : 01

Non attendance stop

Points to note:

- » **Maximum no attendance time:** This is the maximum time a vehicle may be left unattended.
- » **Non attendance stop:** This is a mandatory field. It is a single stop or a comma delimited list of stops at which a vehicle may be left unattended. Make sure that you enter valid stop IDs.
