

Pre Post Trip

Work-flow to Use Pre Post Trip

- » Use **Load Template** to set up and modify the preference for a wide variety of conditions
- » Repeat **Load Template** for additional instances of any template

Preference Overview

This preference adds pre and/or post trip times to the Vehicles Gantt. These elements allow for vehicle preparation and stand-down respectively at the beginning and end of a work day. The preference allows for

- » Both pre and post trip
- » Pre trip only
- » Post trip only

Additional provisions are made to allow the pre and post trip elements to be included in deadheads (pull-out/pull-in) as well as mid-day parking.

Templates Available from Optibus

Table 1-1: Templates Summary

Template Name	Purpose	Reference
Pre\Post trip - General	Set time preferences for both Pre Trip and Post trip.	Pre\Post trip - General

Figure 1-1: Pre and Post Trip preferences

Points to note:

- » The Pre trip and Post trip times are mandatory
- » Pre trip and Post trip may be independently included in deadheads. Typically, Pre trip may be included in Pull out and Post trip may be included in Pull in.
- » Checking mid day parking will add Pre and Post trip times upon return to a depot during the day
- » Use Load Template to create additional instances

You can create additional instances of this preference for different vehicle types or time intervals using **Edit Filters**.

Post trip - General
