Driver Changeover Vehicle

Work-flow to Use Driver Changeover Vehicle

The Driver Changeover Vehicle preference is accessed through **Load Template** and only one instance of it is permitted.

Preference Overview
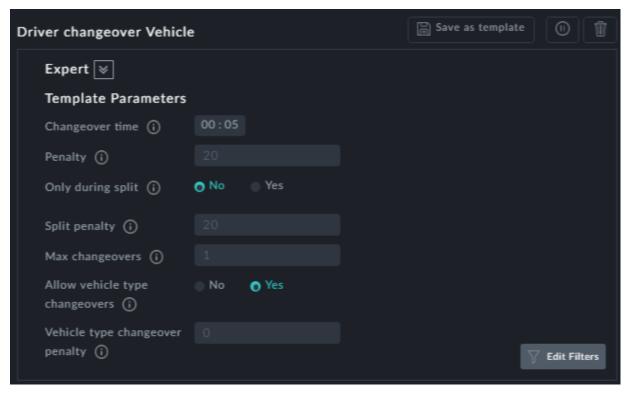

This preference sets

Templates Available from Optibus

Driver Duty Work Time Preference

Purpose:

As stated in the Overview

Prerequisites: None.

Opening Dialog:

Points to note:

- **Changeover time**: Time set for a vehicle changeover
- **Penalty**: This penalty applies to each changeover. Set it high to reduce changeovers and vice versa.
- **Only during split** and **Split penalty**: Setting the Split penalty high reduces the number of changeovers during splits
- **Max changeovers**: How many changeovers allowed in one duty
- **Allow vehicle type changeovers** and **Vehicle type changeover penalty**: Setting the penalty high tends to reduce vehicle type changeovers
