Duty Homogeneity

Work-flow to Use Duty Homogeneity

» There is currently one Optibus template

» Use **Load Template** to set up the preference

> You can repeat **Load Template** for additional instances of the template, but it does not make sense to do it.

Preference Overview

This preference allows you to set duty homogeneity by route sign with a penalty that increases with homogeneity. If there are no changeovers during the duty then duty homogeneity is the same as vehicle route sign homogeneity.

See **Homogenic Vehicle Schedule** in particular, **Add Preference Dialog**.

Duty Homogeneity

Purpose:

As described in the Overview.

Prerequisites: None.

Opening Dialog:

Points to Note:

Penalty: The penalty field is mandatory. The penalty level determines the level of homogeneity.
