Deadheads Generator

Preference Overview

The Deadheads Generator preference is an internal device to calculate and complete deaheads missing from the schedule

> **Note**
>
> Deadhead, pull out or pull in icons in a Gantt having a white dot in the center, for example like this, ▮ are auto-generated by the system.

Here is an example of a Vehicle Gantt with generated deadheads:

For the moment, there is no baseline preference and there are currently no templates. It may be implemented in Expert Mode by Optibus Professional Services.
